Patriot Solutions is a MiEN dealer. MiEN builds furniture for active learning. Whether it's for a single classroom or an entire school, our expert designers customize our furniture to support academic goals and to adapt to evolving learning environments. Professional installation and communicative project management results in a professional, positive experience for our customers.

Today's school designers and decision-makers demand options to help them create the best possible learning environments. MiEN products are scalable and adaptable, with options for leg style, fabric color and type, and table height. Products include seating, tables and desks, teacher stations, storage, presentation tools, and more.
